NO DEALINGS WITH SHOPMEN

Hines Writes Ex-Senator Lewis Chicago Shopmen Must Give In

CONDITIONS BETTER

Central West And New England Alone Feel Effect of Unauthorized Walkout.

No dealings with representatives of the railroad shopmen now on strike will be had by the Railroad Administration, Director-General Hines repeated yesterday in a letter to James Hamilton Lewis, former Senator from Illinois, who telegraphed the Administration August 9 in the interests of the strikers.

"The strikes which have taken p'ace have not been authorized according to the laws of the shopmens organizations with which the Railroad Administration has dealt, the letter said, "and these strikes have the effect of repudiating the established organizations and of bringing the consideration of the matter to a standstill. The President himself has fully adopted the policy.

Chicago, Aug. 14.—Railway officials reported yesterday continued improvement in the railway shopmens strike situation in practically every section of the country with the exception of Boston and Chicago, where a large majority of the men refuse to return to work.

Return of the shopmen in the Atlanta (Ga.) district improved the traffic situation throughout the South.

In Chicago several hundred boiler makers employed by the Chicago, Milwaukee and St. Paul road voted to return.

Officers of the Chicago district council of the Federated Railway shop-strike, in defiance of the orders of the international representatives of the union received word yesterday from Director Hines that the Government would not negotiate any settlement with the local body. Representatives of striking shopmen from every section of the country arrived here yesterday to attend the mass meeting to be held today at which it will be decided what action will be taken in regard to President Wilson's demand that the men return to work immediately and defer a settlement of their wage demands.

Boston, Mass., Aug. 14.—The sixth day of curtailed freight and passenger service caused by the strike last week of several thousand shopmen and mechanics in the employ of New England Railroads found strikes and railroad managers marking time and awaiting the result of the vote on the question of a return to work pending settlement of the wage dispute. The balloting will not be completed until tonight.

Railroad officials announced that attempts would be made to continue the present train service withouth further cancellation until Friday.

Modificaion of the New York, New Haven and Hartford and the Boston and Maine embargoes made effective yesterday removed the fears of many communities concerning the delivery of ice milk and foodstuffs. Many freight handlers on the Newhaven road were idle yesterday and it was expected that a large number of Boston and Maine employes also will be laid off within a few days if the strike continued.

FRUIT HIT BY GALE

Wind Flattens Cornfields in Path of Storm in New Jersey

Burlington, N. J., Aug. 16.—Enormous damage to fruit and other farm crops in Burlington county was resulting from a northeast gale sweeping this section last night.

Orchardists making early estimate of the damage say that not only have thousands of bushels of green peaches and apples been swept from the trees but that under the load of heavy fruit and dampened foliage many branches are being twisted off by the storm.

Other reports say that hundreds of acres of field corn have been flattened by the wind. Because of much recent wet weather the corn has made a quick succulent growth, stalks in many sections averaging fifteen feet in height. Weighted by rain, they fell quick prey to the gale.

CHEAP SHOES A DRUG

Declares Americans Will Not Wear Them

Boston, Aug. 14.—Shoes retailing for $6 and $7 a pair are a drug on the market, according to witnesses who appeared yesterday at the Grand Jury investigation of the high cost of living. They testified that customers demand a more expensive grade and that as a result profits have to be made on the finer grades of leather, while there is no call for parts of hides formerely used for manufacturing cheaper shoes.

The needs of foreign Governments after the war began and the increased demand for shoes after America became a party to the conflict were among the causes of the increase in price, according to other witnessess. Tanners and manufacturers, it was claimed, were all anxious to have prices drop.

$223,000 IN BONDS ARE STOLEN IN N. Y.

New Yok, Aug. 14.—Liberty bonds valued at $223,000 were stolen yesterday from two brokerage firms in the financial district here. The stolen bonds in each instance had been intrusted to messengers, who have disappeared.

Richard Witney & Company, were the victims of the larger theft. This firm dispatched a messenger with $178,000 worth of bonds to the office of Kidder, Peabody and Company, brokers, across the street from the Whitney offices.

The messenger, a boy, did not deliver the bonds, and the police are searching for him.

The other theft was from Simmons and Slade, whose loss totaled $45,000.

At the police commissioner's office it was stated that the messenger who was intrusted with the $45,000 Liberty bonds by Simmons and Slade had a "record" of a similar theft here of $32,000 in Liberty Bonds for which he was brought back from Los Angeles last April and given a suspended sentence.

FLEES MURDER SCENE

Suspect in an Opera Cape Seen Near Where Victim Lay

Chicago, Aug. 14.—Evanston and Chicago police yesterday faced a mysterious murder in the death of a woman believed to be Mrs. E. L. Watkins.

Aroused by screams, residents of Evanston late last night notified the police. The body of a well dressed woman, still warm, with the throat slashed, was found.

Identification was made through grocers' receipts found in her pocketbook.

Passersby told the police they saw a woman wearing a flowing red lined opera cape fleeing down nearby streets shortly after the screams were heard.

SPECIAL SESSION OF LEGISLATURE

Virginia General Assembly Convenes on Road Question

DAVIS AT OPENING

Disregards Precedent And Reads Message Himself—"Boosters" Parade For Improved Highways.

Richmond, Va., Aug 14.—Appearing in person before a joint special session of the General Assembly yesterday Governor Davis read his message to the assembled lawmakers.

At the outset the Governor briefly reviewed the reasons why he had not called the assembly, but added that he did not speak in criticism and promised hearty -cooperation in the good roads program.

He argued against the establisment of an uncontrolled and independent highway department. He recommended the creation of a State Highway Department under the direct control of a State Highway Commissioner, appointed by the Governor, subject to approval of the Senate, and who may be subject to removal for inefficiency or neglect. Other officials and employes of the department authorized by the Assembly should be appointed by the highway commissioner and subject to removal by the commissioner.

To assist the commissioner by advice and otherwise, but to have no administrative powers, the Governor recommended the creation of a State Highway Board of five, to consist of a member of the faculty of the University of Virginia, a member from the Virginia Military Institute and a member from the Virginia Polytechnic Institute, and two members appointed by the Governor from the State at large. This board would be empowered to hear and determine all appeals as to routes of roads and types of construction

The Governor reiterated his well known opinion that under the Constitution it is the duty of Congress to build post roads (interstate trunk lines) wholly at the expense of the Federal Government, leaving to the States the building of feeders or county highways. The fifty-fifty act of Congress does not meet with his approval. Expressing as his opinion that Congress eventually will proceed as the Constitution requires, the Governor advised the Legislature to memorialize Congress for construction of a national highways system.

The Governor touched on the subject of better schools and better paid teachers. In this connection he said that he was glad that a mill tax and 50 per cent. increase in the automobile tax will suffice to meet the Federal road offer. adding:

"I have in mind at the next session an equal provision for better schools and better paid teachers."

The Governor urged upon the special session the enactment of anti-trust and cold-storage control bills, which are now in preparation.

Heretofore it has been customary for executive messages to be transmitted to the House and Senate and to be read by the clerks. Action on a resolution restricting legislation to good roads measures was deferred until today.

A parade was held by good roads enthusiasts, who had motored here from all sections of the State to impress on the Legislature the necessity for improving highways. The run of the "boosters" to the capital started from the more distant sections day before yesterday, and hundreds of cars had arrived by yesterday to take part in the demonstration.

The State is not entirely a unit, however no the matter, dissatisfaction having been voiced in some places over proposed plans for locating road Danville, which at first was enthusiastic, refused to take part in the demonstration, on the ground that the section around the city was not allotted enough of proposed construction.

Mrs. Irene Merryman and Miss Myrtle Heflin, have returned to their homes in this city, after spending some time with relatives and friends in Linden, Va.

CONGRESS HAS POWER TO DEFINE INTOXICANT

Washingtong, Aug. 14.—To secure uniform and efficient administration and enforcement of the prohibition law, Congress clearly has the right to define what is intoxicating liquor, the Senate Judiciary Sub-committee held in a formal report filed yesterday on the amended House Prohibition Enforcement law.

In support of its contention, the sub-committee appended an elaborate brief, understood to have been prepared by counsel for the Anti-Saloon League of America, citing many court decisions and precedents.

U. S. MAY DEAL ALONE WITH GERMANY ON PEACE TREATY

London, Aug. 14.—America appears likely to be left to settle her peace accounts personally with Germany.

England has ratified the pence treaty and is ready for business. France is expected to complete her ratification job by mid-Septembe. Dispatches from Italy indicate that Italy will not delay official approval of the dcument much longer and Japan is expected to act at any time now.

Thus statesmen pointed out the delay in the United States Senate is not of great importance as peace will be in effect when three of the allies ratify the treaty. After that it will be "merely a personal affair between the United States and Germany."

Nothing is delaying French action on the treaty now it is said except that Parliament is enjoying its summer vacation. The chamber will be back at work August 26 and the senate September 4.

Immediately upon reconvening both branches of the French Parliament will take up the treaty for discussion. Both the senate and chamber special commissions on the treaty have studied it, and reported the document to their respective houses with recommendations for favorable action.

It is not believed that ratification, therefore, will be delayed beyond September 15. Both the Italian and Japanese governments are expected to approve the document by that time if not before.

Deputy Stoppato, member of the Italian parliamentary commission which is studying the treaty, has let it be known that there will be no excessive delay in Italy's action — that the treaty will be signed as presented although Italy does not sympathize with the proposed trial of the former Kaiser.

FLYING BICYCLES

London, Aug. 14.—Flying bicycles ae the latest word in aerial fashions.

Gabriel Poulain, noted French cyclist, has succeeded in perfecting an aerocycle which he is able to raise into the air and propel for a distance of twelve yards, attaining a speed of twenty-five miles an hour. Poulain will demonstrate the machine before the French Aero Club shortly. French and British enthusiasts foresee the day when the aerocycle will be as common as the bicycle. Great muscular effort is necessary to lift the machine from the ground, but once in the air propulsion is easy.

LEWIS HOLLAR BADLY STABBED

Affair Staged Early Last Night at King and Columbus Streets

ATTRACTS BIG CROWD

L. M. Reed Sought by Police For Affair—Hollar is Patient at Hospital—Will Recover.

Lewis Hollar, about thirty-two years old, formerly a jitney driver was badly cut last night by a man whom the police say is L. M. Reed, also known as Jack Reeves.

The affair took place about 8.30 o'clock at the corner of King and Columbus streets. The wife of Hollar was nearby and witnessed the cutting.

Shortly afterward Hollar was taken to the Alexandria Hospital and treated by Dr. E. A. Gorman.

Hollar was badly cut on the head and side of the face. At the hospital today it was stated that Hollar is rapidly recovering from his injuries.

Following the affair Reed left and the police made ineffectual efforts to locate him but thus far have been unsuccessful. The affair created considerable excitement in the neighborhood and attracted a large throng. The cause of the fracas is not known. Among those who witnessed the stabbing were a number of persons waiting to board an electric train for Washington.

TWO DEAD IN AUTO UPSET

Donora, Pa., Aug. 14.—Two men were killed and three others suffered injuries yesterday afternoon when an automobile in which the men were riding overturned on the Webster road, near here.

Investigation failed to disclose which of the men was driving the automobile at the time the accident occurred, but witnesses say that when they first noticed the machine it appeared that something had gone wrong with the steering gear, and that the car after zig-zagging along the road, suddenly swerved widely and hitting a small bank, upset and fell 10 feet into a small gully. For some reason none of the occupants of the car made any effont to jump, being either overcome with fright, or not realizing that they were in any immediate danger.

JEWISH REFUGEES

Hundreds on Their Way to America Stranded in Japan

New York Aug. 14.—Hundreds of Siberian Jewish refugees attempting to make their way to America when the war began, have been stranded for months in Japan and other countries of the Far East and are now at the point of starvation according to reports made public here by the American-Jewish Relief committee.

These are the most pitiful of all the war refugees. They cannot go back to Russia the land they left because of the condition there, the report states. They cannot go to America, the land toward which their faces were turned, since immigration from the Orient is held up at present. Some of them have been waiting almost five years for a boat. Among them are mothers, children brothers sisters and sweethearts of people in America and all are penniless and homeless.

A generous appropriation from the funds of the American-Jewish Relief committee and its allied organizations has just been cabled to the Orient to aid these unfortunates. They constitute one of the important charges against Jewish relief funds. Plans are being made to care for them during the remaining months of 1919 out of the $35,000,000 that the Jews of America are seeking this year for relief work in foreign countries. When condition became more settled, the refugees will be repatriated or brought on to this country.

COL. JAMES M. LOVE RETURNS

Word has been received in this city of the arrival at New York, of Col. James M. Love, of Fairfax, Virginia. He is well known in Alexandria and throughout the state.

He went overseas early part of May, 1918, as Lt. Col. of the 318th Infantry, serving with that regiment during its period of intensive training with the British army in Northern France. When the 80th division moved South in preparation for the big offensive of September, he was detached for important staff duties being promoted to the rank of colonel. After two months on this detail he returned to the 80th to take command of the 319th regiment serving conspiculously with that command throughout the remainder of the campaign. He was cited several times for gallantry and has been awarded the distinguished service medal.

After spending a short time with his family who are now at Jamestown R. I. for the summer he will report at Ft. Leavensworth for important tactical work to be taken-up by the staff college of the army.

LET THE GOOD WORK GO ON.

As will be seen elsewhere, the authorities have started the ball rolling by seizing great pyramids of foodstuffs which have been stored away in certain places in Florida, Tennessee, Chicago and other places. Thousands of pounds of sugar, innumerable cases of canned goods, many dozens of eggs, large accumulations of rice, flour, etc., have been seized. These huge stocks are now in the possession of United States officials, and it is up to the hoarders to explain themselves.

War on the profiteer has been started in earnest, and should the good work described above be kept going large stocks of the necessaries of life will soon be unearthed when the backbone of present prices will surely bend or break.

Thoughtless men are suggesting that food hoarders be placed before firing squads, but such rash talk should not be tolerated by civilized people. Let the government handle the matter. Officials will soon bring to the light stores of many articles which are being held at high water mark prices and their disposition at reasonable rates is sure to follow.

In the spring of 1865, when it was realized the collapse of the late Southern Confederacy was inevitable, thousands of pounds of bacon were burned in the evacuation of Richmond. During most of the civil war southern soldiers as well as civilians often suffered for the actual necessities of life, and it was regarded as worse than Ephesian temple burning when warehouses filled with food were seen going up in smoke.

SPENDING TO SAVE

To carry out the President's suggestion for reducing the cost of living, the Departments of Commerce and Labor ask Congress for appropriations aggregating nearly 1,000,000.

For the same purpose, Attorney General Palmer will ask Congress for an appropriation of $1,500,000.

"In other words, as is suggested by the Baltimore Sun, "to save money, Congress is asked to spend money in huge quantities.

"If these appropriations will really result in the reduction of the cost of living on a big scale, they are not considerable.

"But with so many instances of governmental inefficiency and red tape and useless expenditures at hand, the burden of proof is strongly upon those who ask for more money. Particularly is suspicion aroused when we are told that the Department of Labor wants its half million to employ 19 experts and 200 special agents and a number of clerks.

"By all means spend the money if a direct return on the investment is visible. But not otherwise."

SITUATION IMPROVING

According to advices from strike centres, about ninety per cent of the men who left the employ of railroad companies have returned to work. They, very sensibly, followed the example of the employees in Alexandria and Washington who determined to return their labors and await the result of the investigation of their overtures for increased pay and more satisfactory working conditions. They have thus shown themselves to be good citizens, respectors of law and order.

Walkouts bring considerable trouble in the world at present. In most cases those who quit their work in large bodies are following bell weathers and often leap before they look. In these days of high cost of everything, claims of men for wages commensurate with the demands upon their earnings should be considered instanter. The workman has limited opportunity to accumulate money for rainy days, and when he realizes he is paying out monthly more than he can learn he naturally grows restive.

But there is a way to do all things, and all things should be done decently and in order. Defiance of chosen labor leaders and, incidentally, the President of the United States are not the best procedures in such disputes.

Despisers of dominion do not form the best classes of citizens, and in most labor movements this element is in evidence. They, however, form but a small percentage of the laboring men of the world and should not be suffered to have things their own way on every occasion.

FOOD IN STORAGE SEIZED

Raids by U. S. Agents Made in Drive on Price Boosting

Jacksonville, Fla., Aug. 14.—More than a million eggs, hundreds of thousands of tin canned foods and 27,500 pounds of sugar were seized here yesterday in a raid on wholesale food warehouses and cold storage plants by Federal officers.

Tampa, Fla., Aug. 14.—Foodstuffs, held in storage by six Tampa wholesale concerns, aggregating 326,000 tins of canned goods, 4000 cases of eggs, with large quantities of sugar, flour and other commodities, were seized here yesterday by agents of the Department of Justice, acting under orders of H. S. Phillips, United States District Attorney. Notices of libel were served on the owners, charging that the goods were being illegally held from the market for the purpose of unreasonably increasing prices.

Swift and Co., Crenshaw Bros., Produce Company, Charles M. Moorhouse, Jose Garcia, Jose Suarez and Reina Brothers were owners of the seized stocks. The haul also included 36,200 pounds of rice, 71,450 pounds of salt, about 30,000 pounds of sugar, 20,580 pounds of flour and lesser quantities of other commodities. Mr. Phillips said further seizures were contemplated.

Chattanooga, Tenn., Aug. 14.—Eighty-four thousand dozen eggs stored with the Atlantic Ice and Coal Corporation here for the account of Morris and Co., Chicago, were seized yesterday by the United States District Attorney. Seizure was made under libel proceedings in the Federal Court, which charged that the eggs were unlawfully stored to obtain unreasonably increasing prices.

Chicago, Aug. 14.—Members of the Chicago Butter and Egg Board yesterday telegraphed to President Wilson a copy of a resolution adopted by the organization offering to assist and cooperate with the government in the formulation of a plan to regulate the storage and sale of those commodities so as to reduce the cost to the consumer and aid government officials in their fight against the high cost of living.

FINDS FIANCEE MARRIED

Skipper Asks Return of Ring—Has Young Woman Arrested

New York, Aug. 14.—Capt. Edgar Lucas Adams of the ship Phyllis returned to his home in Brooklyn, after a cruise of 15 months. He had a lot of money he says, and flirted with a young woman he supposed to be Miss Mildred Coffee.

The captain says he spent $3000 entertaining "Miss Coffee" who took him to her home where he became acquainted with her mother and sister. They became engaged, and he gave her $600 to buy a ring. Later, the captain says his fiancee's husband appeared and said the engagement was off. He demanded the return of the ring, and when it was refused had the woman arrested.

He appeared in Yorkville Court complainant against Mrs. Mildred McNiff (which is the woman's real name) of Brooklyn. The case was adjourned.

THREE SHOT IN RIOTING

Keystone Wire and Steel Company Officials Victims

Peoria, Ill., Aug. 14.—Two members of the Keystone Wire and Steel Company, where rioting occurred yesterday when strikers clashed with deputy sheriffs, were shot and seriously injured when they were leaving the plant last night.

A watchman at the plant was also shot in the back by snipers.

Armed strikers fired on the plant at intervals, according to reports, Deputy Sheriffs declared they had despaired of keeping peace, and Sheriff Hines conferred with Major C. W. Russell, of Governor Lowden's staff, concerning the need of troops.

The fighting started when strikers attempted to prevent strikebreakers, said to have been imported from Chicago and Johnstown, Pa., from going to work.

Eight hundred Keystone employes have been out on strike for six weeks, demanding a closed shop.

The injured are Reuben Sommers, son of the plant chemist, and his cousin, Alvin Sommers, son of the assistant general superintendent.

The injured watchman, Frank Rudolph, was accused by the strikers of being a strike breaker.

FIND UNCONSCIOUS YOUTH

Lynchburg Authorities Are of Opinion That Charles Plunkett Met With Foul Play

Lynchburg, Va., Aug. 14.—Charles C. Plunkett, aged 20, son of A. Plunkett, superintendent of the Presbyterian Cemetery, and membr of a well known Lynchburg family, was found Tuesday afternoon on a bluff near his home in Rivermont, after an overnight search, the young man having been wounded severely in the back of his head.

He went target shooting Monday afternoon and seems to have been hurt in a fall or is a victim of foul play. He is unconscious and cannot relate his experiences. The last three hours the young man was out in a hard rain.

Plunkett, now an express messenger between Lynchburg and Petersburg, was in the army, being attached to the personnel adjutant's detachment at Camp Greene, when he was discharged from the army in February. His condition is said to be critical.

ACTION MAY COME AT ONCE

Demands of Democrats for Consideration of Peace Treaty Lead to Bitter Debate

A demand by administration Senators for precipitate action on the peace treaty provoked a violent controversy which broke up the meeting of the Senate Foreign Relations Committee yesterday.

Across the $780 mahogany "peace table," which was specially constructed for the committee's hearings on the treaty, charges and counter charges were hurled in such turbulent fashion that Senator Lodge got tired of pounding the table with the block of marble which he used as a gavel and adjourned the meeting.

It was announced by Senator Lodge that the committee tomorrow morning will take up the actual work of drafting and voting upon reservations and amendments to the treaty.

"Smoke Virginia-Carolina Straight"

Does Quality mean "fancy price" to you?

Some smokers still pay a fancy price for "descendants" of Virginia-Carolina tobacco that was transplanted years ago to Turkey. But men who judge tobacco by quality rather than price prefer Virginia-Carolina.

For this tobacco has all the qualities which men want in a cigarette—flavor, body, zest and "life."

That's why Virginia-Carolina doesn't need to be mixed with other tobaccos, but tastes best when you smoke it straight—in a Piedmont.

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

Let us send you a "Swift Dollar." It will interest you.

TINOCO REPORTED SLAIN

Vice-President of Costa Rica Assassinated, Says Dispatch

Washington, Aug. 14.—Joaquin Tinoco, brother of the President of Costa Rica, was assassinated August 10, according to reports yesterday were given.

Whether President Tinoco still is in Costa Rica is not known at the State Department. He was reported recently to have asked leave of absence from Congress with the intention of leaving the country. Joaquin Tinoco was his legal successor.

Removal of Joaquin Tinoco was accepted by the State Department as further indication of the early breaking up of the present Government, which President Wilson has refused to recognize because it was created by the forcible overthrow of the constituted authorities. Joaquin Tinoco was 'Premier designado," a title corresponding to that of vice-president.

General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Section 117. But each of the cities and towns of the State having at the time of the adoption of this Constitution a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

MINERS FACING STARVATION

Railroad Tieup Cuts Off West Virginia Food Supply

Charleston, W. Va. Aug. 14.—Thousands of miners and their families in the Logan Coal River and Cabin Creek fields face starvation in the next two or three days, and now are actually suffering privations as the result of the freight and passenger tie-up on branch lines of the Chesapeake and Ohio Railroad caused by the shopmen's strike, according to work received here yesterday by coal companies which operate in that section. More than 300 mines have been closed down and 30,000 men thrown out of work by the strike, reports said.

On account of the rough, mountainous country surrounding the mine fields, it is impossible to transport foodstuffs by other means than railroad to feed the 125,000 population there. The desperate situation of the mining communities it is said, will be placed before a meeting of the striking shopmen at Huntington tonight.

Although no specific mention of labor unions was made in the order, many members of the department interpreted it as designed to prevent affiliation of policemen with labor organizations.

COLD STORAGE

Senator McKellar Asks For Federal Regulation

Washington Aug. 14.—Federal regulation of cold storage of food was urged in the Senate yesterday by Senator McKellar (Democrat) of Tennessee as a certain means of reducing the cost of living and as the only remedy for "the most outrageous piece of profiteering that can be imagined.

Speaking in support of his bill first introduced in 1913 and now as reintroduced before the Senate Interstate Commerce Sub-committee considering high cost of living recommendations of President Wilson. BOLSHEVIK ARMIES DEFEATED

Fortress of Dubno and Three Cities Taken by Ukrainains

London, Aug. 14.—The fortress of Dubno in Southwestern Volhynia southeast of Lutsk, has been captured from the Bolshevik forces by the Ukrainian Army, according to Ukrainian

The city of Vinnitza, in the Ukraine 125 miles southwest of Kiev, has been abandoned by the Bolsheviki, according to a wireless message from Moscow. In Volhynia anti-Bolshevik forces have accupied the railway centre of Lutsk, southeast of Kovel.

The Bolshevik wireless message reads:

"In the direction of Zherminka, we have abandoned Vinnitza. The enemy has occupied Lutsk."

Withdrawal of the Bolsheviki from Vinnitza indicates that the Roumanians and anti Bolsheviki have forced the Bolsheviki to retire from the line of the river Dniester in Northeastern Bessarabia.

Six Bolshevik battalions were destroyed in a successful Anglo-Russian offensive on the Dvina River on August 10, the War Office announced. field guns and many machine gun were captured.

The Anglo-Russian front on the Dvina was pushed forward twelve miles.

MILLION CARS FORD'S AIM

Production is Now Three Thousand A Day

Detroit, Aug. 14.—The Ford Motor Company proposes production for the coming year on the basis of 1,000,000 cars. For the year ended July 31 the output was 525,000, with many of the plants on war work about half the year.

Production in the main plants and at the 38 branches is now running about 3000 cars and chasses a day. The program for the coming year also includes extensive production of parts, the stock of which was depleted in many cases because of war work. A recent convention of all branch managers of the Company was held at the main plant to prepare for the Company's expected greatest year.

MAY RESUME STRIKE

Pittsburgh, Pa., Aug. 14.—Possibility of resumption of the strike by 3000 motormen and conductors of the Pittsburgh Railways Company was forecast yesterday by the announcement by P. J. Ward, business agent of Division 85, Amagamated Association of Street and Electric Railway Employees, that the men would not accept the wage increase of 5 cents an hour awarded yesterday by the National War Labor Board in New York. To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
